ADVANCED: Repeated Practice of freestyle and stroke corrections,	Basic: walking and balancing in water without any support. INTERMEDIATE: Teaching of Freestyle and stroke corrections, Laps practice. ADVANCED: Repeated Practice of freestyle and stroke corrections,

PARENT INVOLVEMENT ACTIVITY

“It is our collective and individual responsibility to preserve and tend to the world in which we all live.” – Dalai Lama. “We must open young minds to think beyond the text book and become aware of the environment. They have to be enthused to realise that we, human beings are a part of a larger environment and both the source and cause of environmental pollution. They also need to realise that if the problem is caused by us, then we ourselves must find ways to save it. Show the children some interesting videos relating to how one must keep the environment clean, save water and electricity. Discuss on the 4 Rs; Recycle, Reuse, Refuse and Reduce. Discuss and write the ways of Conserving water at home and at School. Help your child with a Poem, Poster- making, Creative writing on environment. Send it across to display in the classroom.

CREATIVE CLASSROOM DECOR

Class Room will be decorated as per the Monthly Theme.
