PARENT INVOLVEMENT ACTIVITY

Schools, parents, and the community should work together to promote the health, well being, and learning of all students. When schools actively involve parents and engage community resources they are able to respond more effectively to the health-related needs of students. Family and community involvements foster partnerships among schools, family and community groups, and individuals. These partnerships result in sharing and maximizing resources. And they help children and youth develop healthy behaviors and promote healthy families.

CREATIVE CLASSROOM DECOR

Students along with the teacher decorate the classroom as per the monthly theme.
